Pages	**2 (front, back)**
Resolution	**300 dpi at full size**
Colour	**CMYK**
File	**PDF (PDF/X-1a is ideal), fonts embedded or outlined**

Before you send your file

- This product is cut to a special shape. Ask us for the exact cutter guide before you design.
- Supply as a CMYK PDF
- Outline or embed fonts
- 300dpi resolution
- Please note that NCR pads have a non-printable area of 5mm. If you have selected drilling, please allow a 15mm safe zone for the drill holes. These are drilled in the standard position on the left hand edge to fit in to ring binders.
- If you are selecting double sided print, we suggest using 70% black for the reverse to avoid show-through.
- You can print on the top sheet either single or double sided. The 'copy' papers are printed single sided only.
- Ensure all annotations and form fields are flattened before upload as these may otherwise drop out / be removed.

No design software? We can do it for you.

Order with "Design it for me" and our designers set up your artwork and send a proof.
